

Job Posting #4: Testing, Compliance, Quality and Vendor Management Engineer

Vanguard is an entirely new and distinct motorcycle brand, designed, engineered and built in New York City. With an advanced take on design and a unique approach to engineering, manufacturing and sales, Vanguard's vision is to redefine the premium motorcycle.

We are currently seeking sharp, motivated individuals to join a tight-knit engineering team in designing and producing motorcycles unlike any other.

Testing, Compliance, Quality and Vendor Management Engineer

Role:

- Role that spans the development cycle with a focus on coordinating tests to ensure that the motorcycle and its various components are compliant with government regulations, rider expectations for ergonomics and usability, and reliable operation.
- Lead the testing phases of key parts and subassemblies (structural resistance, fatigue behavior...)
- Manage and update technical databases of the company, including regulations, Standards, development and testing procedures, materials databases, know how catalogues, certification.
- Support vendors and be the point of contact for engineering and quality issues.
- The testing, compliance, quality and vendor management engineer will be part of a cross-functional team reporting to the Project Manager.

Qualifications:

- Degree in engineering required
- Practical experience in the power sports, automotive, or aerospace industries preferred
- Light metal and composite material properties/manufacturing know how
- The ideal candidate is pragmatic, meticulous, and has a passion for solving problems.
- Strong verbal and written communication skills.
- Proactive, self-motivated and ability to work independently, happy to work in a fast-paced, exciting startup environment and participate towards office life.

Compensation:

- \$70k to \$90k base salary
- Bonus target of 5% of base
- Medical benefits

Position:

Full-time in our New York City facility, located at the Brooklyn Navy Yard.

How to Apply:

Please send resume, cover letter and references to info@vanguard.nyc.
